ExpertPower is a Los Angeles-based energy solutions company located in the heart of beautiful southern California. Since its establishment in 1987, ExpertPower has worked hard to earn its reputation as the most dependable in the business. Our product reviews are from actual customers who both appreciate and trust the quality they have come to expect from our products.

From our smallest battery pack to our largest energy storage system, ExpertPower designs, manufactures, distributes, services and supports energy storage solutions that provide customers with superior value.

Our mission at ExpertPower is to empower individuals and communities to live sustainable and fulfilling lives by providing innovative energy solutions that enable energy independence and a greener future.

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

"...multiple portable Power stations and this battery is great for weight and design. It is performing very well and look forward to continued service...." Read more

"...Thanks Expert Power for a great battery at a great price. It is very well constructed, durable, and I expect it to last for a long time!" Read more

"It only worked 2 times and now has no power and will not take a charge at all not even a month old I was able to get in contact with them and they..." Read more

The state-of-the-art battery management system (BMS) with high-performance dual-processors provides short circuit, over charging and over-temperature protection while maintaining a balanced voltage across all cells.

The battery with an activation switch will allow you manually get into the shelf mode, the battery will have a very low self-discharge rate in the mode and can hold the charge for a longer period, To better protect your battery when not in use.

12v rechargeable lithium battery pack

The battery features RS485 communication ports enabling communication between batteries, external devices (BT-2 Bluetooth Module or Monitoring Screen), and host computers for you to monitor the charging status in real-time in Renogy DC Home APP.
