

13 kWh solar cell

13 kWh solar cell

The Enphase Ensemble automatically detects and transitions the system from grid power to backup power in the event of a grid failure so you can always have peace of mind.

This 13kWh battery storage system supplies backup energy solutions for a small portion of the home. You can power lights, charge computers and cell phones and use common appliances like refrigerators.

With Enphase, you can design and customize the right energy storage system to meet your needs. You can connect multiple Encharge batteries to maximize your home's backup potential.

Some permit applications may require one or more plan revisions and resubmissions. Please supply us with all information necessary to make these revisions. Permit must be applied for with the city within 30 days of delivery of the permit package and any resubmissions must be resubmitted within 14 days of receiving the revised plans.

Our guarantee does not apply to installations on unsafe structures, unpermitted structures, ground mounts, structural engineering, structures not constructed to local building codes and other atypical building designs. This guarantee only applies to our standard solar system kits, it does not apply to custom orders or solar systems not designed by our engineers.

Whether paired with solar panels or operating as a standalone backup solution, the Powerwall 3 offers seamless power transition during outages, intelligent storm protection, and flexible energy management options. Its built-in solar inverter streamlines installation, reduces system complexity, and maximizes overall efficiency with 97.5% solar-to-grid conversion."

This residential roof-mounted Q.PEAK DUO G5 solar panel system was designed with record breaking Q.PEAK DUO G5 325 solar panels at a low wholesale price. This complete solar system comes with your choice of IronRidge, SnapNRack or ProSolar roof mounting system, "Q.PEAK DUO-G5" 325 watt solar panels, SolarEdge inverter, Power Optimizers, and everything but standard hardware.
