

## 20 kWh photovoltaic battery energy storage

### 20 kWh photovoltaic battery energy storage

The BSLBATT 20 kWh battery bank uses lithium iron phosphate (LFP) batteries for high-consumption residential buildings as well as commercial and industrial buildings. Working with BSLBATT, you can design and customize the right lithium solar battery to meet your needs.

Store your excess solar energy to automatically avoid peak TOU rates with the intelligent energy management. Outage Protection Bring maximum safety and reliability to your home.

Discover the future of home energy storage with the Growatt APX 20.0P-S0-US 20kWh Solar Battery Module. Engineered for both on-grid and off-grid systems, this cobalt-free LFP battery offers unparalleled safety, flexibility, and a 10-year warranty. Ideal for enhancing solar setups and ensuring energy independence.

These solar batteries are rated to deliver 20 kilo-watt hours kWh per cycle. Check your power bills to find the actual kWh consumption for your home or business. Find the average per day and the peak daily kWh consumption. We have solar battery packs available that provide power storage from 1kWh to more than 100 kWh.

This 20kWh battery storage package supplies backup energy solutions for a substantial portion of the home. You can power lights, computers, TVs, security systems and common appliances like refrigerators and freezers. With Enphase, you can design and customize the right energy storage system to meet your needs.

The item you are trying to purchase is currently out of stock. Please enter your name, email, and phone number below. We will contact you as soon as this product is available.
