

24v deep cycle battery charger

24v deep cycle battery charger

Professional battery chargers with more performance and more automation than ever before. An advanced architecture that pushes the limits of power efficiency for incredibly compact size and unprecedented power. Welcome to the all new GENIUSPRO.

Finally...you've found the elusive 24V battery charger. Enjoy the same quick, safe charge of our popular 12V chargers, now in a convenient 24 volt format. These smart 24V battery chargers banish overcharging and undercharging, prolonging the life of your batteries.

Our Lithium LiFePO4 batteries bring you revolutionary technology ahead of its time. As the creators of the Ionic brand, we combine powerful lithium, Grade A battery cells, and Bluetooth monitoring for a battery that lasts longer, works harder and plays smarter. With LithiumHub, you're guaranteed 100% US-based support, plus a competitive, no-nonsense 11-year warranty. Explore our collection today to experience the latest in marine battery technology.

What is a smart 24V battery charger? Simply put, a smart charger knows more and does more. It's a "set it and forget it" charger that lets you plug your batteries in and walk away.

No more "guesstimating" about whether a charge is complete or not. No more unplugging to prevent overcharging. These smart chargers display a green light when the charge is complete, and can be paired with our Bluetooth app to view time remaining for full-charge and other important data.

Make the most out of your battery investment with a charger designed with lithium in mind. Our smart LiFePO4 chargers allow you to take advantage of your battery's Bluetooth feature. This feature lets you monitor your charge via your smartphone.

Keep your lithium batteries in top condition with a high quality smart 24V charger. We manufacture our chargers to match the longevity and efficiency of our deep cycle LiFePO4 batteries.

Weighing just 7.6 oz (216g), the 24V 2A charger is one of our lightest and most portable chargers. At 2 lbs.(912g), the 24V 10A charger makes transporting your charging setup a breeze.

Competitive pricing? A worry-saving warranty? These perks make our 24V chargers an even rarer find. Plus, every charger comes with the LithiumHub 30 Day Return Policy.
