

24v lithium ion

24v lithium ion

A space-saving choice for your 24V power system, Upgrades from lead-acid to lithium seamlessly with a greater energy density, 100% usable capacity, and a faster-charging speed.

The state-of-the-art battery management system (BMS) provides short circuits, overcharging, and over-temperature protection while maintaining a balanced voltage across all cells, Ensures reliable power output and a longer lifespan.

Reliable output and ultra safety, Performance certified with MSDS, UN38.3, FCC, CE, UKCA, and PSE, IP65 waterproof, protected against water and dust with the fully sealed housing.

If the battery's Battery Management System (BMS) is activated and the battery voltage shows 0V, you must use a compatible Li charger to reactivate this battery.

The Trojan GC2 24V Lithium-Ion battery features the longest lifetime of any deep cycle battery, keeping you moving on the water or on the job. Upgrading to Trojan Lithium-Ion gives you longer runtimes, no maintenance, opportunity charging and more----a perfect battery for Marine, Aerial Work Platforms (AWPs), and Floor Cleaning Machine applications.

When it comes to replacing or upgrading your golf cart and LSEV batteries to lithium-ion, there are two battery sizes to choose from--GC2 (multiple, smaller units) or a single large battery pack. GC2 lithium batteries are stacked with benefits you should consider.
