

25 watt solar panel charge 12v battery

25 watt solar panel charge 12v battery

I purchased a panel from Eco-Worthy a year ago. It works much better than some panels I got from another source some 4 years ago. So when I needed solar panels for another project I went straight to Eco-Worthy. These also work well, and I know the price is right. Good value.

It just works....Got the kit to run lights and such on the patio. This is the real deal and exceeded my expectations. I found this to be a quality product and just works. Quality, reliability and affordability all in one. Will be buying more to expand my systemKeep up the good work

I put the 25W panel and 10Ah battery in a small hay barn, hooked up to some LED lights. Working great so far. I found the panel mounting bracket to be useless in my high-wind area, so I just bonded the panel to the metal roof. The cables to connect all the parts are nice, but a bit short. A longer cable to the panel would also allow more flexibility, but was just looking enough for my application. My biggest wish is that the controller would show charge level. I won't know if the panel is keeping the battery charged unless the lights go out!

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

"Keeps deep cycle battery charged for backup portable oxygen for when power goes out. Also use it to keep my diesel truck batteries charged...." Read more

"Easy to put together. I used the additional wires that came with it to hook into my battery posts so I don't have to use the clips each time...." Read more

"...Battery Tender and found this one which is using a superior solar panel with better cells so you get more wattage for a similar size...." Read more

"... read to go and the 25' cable I ordered separately works great to set the solar charger on the slide out on my travel trailer...." Read more
