

250 kWh energy storage software

250 kWh energy storage software

EVESCO's ES-250400-NA is an all-in-one containerized energy storage system that creates tremendous value and flexibility for commercial and industrial customers. Complete with a 250kW PCS, 408kWh LiFePO4 battery, 3-tier battery management system, HVAC, fire suppression system, and smart controller. The ES-250400-NA has a robust and rugged internal and external structure. It is delivered pre-assembled, having already been manufactured, commissioned, and tested at our production facilities, a true plug-n-play containerized energy storage solution.

EVESCO's containerized energy storage solutions can be paralleled for future scalability to increase both rated power and capacity. The addition of battery energy storage to EV charging, solar, wind, and other applications can reduce energy costs, increase revenues, lower dependence on the grid and give you control over your energy. The EVESCO energy storage system can help avoid expensive peak demand charges by utilizing stored energy during peak periods.

At EVESCO, we help businesses deploy scalable, fast electric vehicle charging solutions that free them from the constraints of the electric grid through innovative energy storage

Our focused approach to exceptional end to end customer experience sets us apart from the competition. From enquiry to delivery and everything in-between we regularly exceed our customers' expectations.

Delivery on time, every time to customer specifications. We pride ourselves on offering tailored service solutions to meet our customers' exact specifications.
