

580 kWh home energy storage battery

580 kWh home energy storage battery

If you happen to find a lower price for the same product, we will guarantee to match their price or beat their price. Note, this does not apply to all products in the store. Please reach out to us via email or chat if you want a price match or price beat.

At OffGrid Living Solutions, we are proud to have the best refund and return policies in the industry. If you're not satisfied with your purchase for any reason, you may return it to us within 30 days for a refund.

If you have a problem with our order (there are missing components, damages, or the product is not functioning), please reach out to us as quickly as possible. Some of the problems can be resolved by going through the product manual or the product FAQs.

Once we receive your order, we will send you a confirmation email. Then we will process the order by confirming that the product is in stock and ready for shipment. If any of the items in your order are back-ordered, we will reach to you via email or phone and you may choose to either wait or receive a 100% refund.

Before you sign the shipping bill, please **THOROUGHLY INSPECT YOUR ITEM**. Signing for the receipt of a damaged product removes the liability of the shipping company and OffGrid Living Solutions. Once you accept your shipment as non-damage, your item is your property.

Embrace the path to energy self-sufficiency with the Walrus Home Energy System - your all-in-one solution for diverse residential energy needs. With its substantial 30 kWh storage capacity coupled with a robust 10 kW inverter, the Walrus Atlantic is engineered to provide steadfast energy backup, keeping your home illuminated, appliances running, and security systems active, independent of grid reliability.

For solar-equipped households, the Walrus Atlantic serves as a dynamic solar battery, efficiently storing the surplus energy produced during the daytime for your nighttime use or as a standby power reserve, enhancing solar utilization while reducing electricity costs and environmental impact. Homes without solar installations can also benefit as the Walrus smoothly integrates with grid power to deliver the advantages of energy conservation and emergency backup.

Setting up the Walrus Atlantic is a breeze, thanks to its user-oriented Plug n' Play design with easily navigable side panel connections. It accommodates both AC and PV inputs, supporting homes powered by conventional grid electricity or those harvesting solar energy. The smart versatility of the Walrus is evident in its dual RS 485 ports, Wi-Fi connectivity, and generator interface, assuring effortless integration across various electrical arrangements, from grid-connected to entirely off-grid setups.

580 kWh home energy storage battery

But the Walrus Atlantic offers more than just backup; it promises outstanding operational efficiency. Its 95% conversion efficacy and pure-sine wave delivery safeguard your delicate electronic devices, while the dual voltage output options (120V/220V) ensure widespread appliance and tool compatibility. The system's design, complete with an AC circuit breaker and a ground screw hole, highlights the Walrus Atlantic's dedication to consistent performance and paramount safety.

At BatteryEVO, we stand behind the quality and durability of our batteries with our 10-Year Warranty. We ensure that every BatteryEVO battery is free from defects in material and workmanship for a period of 10 years from the date of purchase. Here's what our warranty includes:
