## Bandar seri begawan battery safety

Airwheel, solowheel, hoverboard, mini-segway and balance wheel will be prohibited for carriage as checked baggage in the aircraft hold or hand carried in the cabin on any Royal Brunei flights.

Due to safety and precautionary reason, any battery powered vehicles with high power rating lithium batteries such as airwheel, solowheel, hoverboard, mini-segway and balance wheel will be prohibited for carriage as checked baggage in the aircraft hold or hand carried in the cabin, with or without battery, on any Royal Brunei flights.

If it is found after check-in or boarding, it will be removed and the passenger will be responsible to arrange for the storage or disposal of these vehicles. The airline will not be responsible to arrange for the shipping of the vehicles

Please be informed transit at Brunei International Airport is currently not permitted. Guests are advised not to make bookings through a multiple city search that require a transit. Guests will not be permitted to board if travel restriction criteria and government approvals are not met. For further information please [click here](#).

Requests for a full refund into a RB credit voucher or rebooking to a new travel date is applicable for all existing or new flights booked for travel until 31 October 2022. This only applies to guests on affected flights. Please contact your nearest RB Customer Service Centre for assistance.

The International Air Transport Association (IATA) has introduced a new safety regulation on the carriage of Smart Luggage &#8211; bags powered by lithium batteries that may include motors, power banks, GPS, GSM, Bluetooth, RFID or Wi-Fi technology.

Smart luggage is allowed as cabin baggage if the lithium battery is removable. The removable battery can remain installed, with the condition that the smart luggage power must be completely switched off. RB cabin baggage allowance on the size and weight limit of 7 kg still applies. For checked baggage:

The lithium battery must be removed from the baggage and the lithium battery must be carried in the cabin. RB checked baggage allowance on the size and weight limit still applies. Smart luggage with non-removable lithium battery is not permitted for carriage on all RB flights as cabin or checked baggage.
