Battery charger 12v lithium

FREE Delivery is available to Prime members. To join, select "Try Amazon Prime and start saving today with FREE Delivery" below the Add to Cart button and confirm your Prime free trial.

Important: Your credit card will NOT be charged when you start your free trial or if you cancel during the trial period. If you're happy with Amazon Prime, do nothing. At the end of the free trial, your membership will automatically upgrade to a monthly membership.

ExpertPower is a Los Angeles-based energy solutions company located in the heart of beautiful southern California. Since its establishment in 1987, ExpertPower has worked hard to earn its reputation as the most dependable in the business. Our product reviews are from actual customers who both appreciate and trust the quality they have come to expect from our products.

From our smallest battery pack to our largest energy storage system, ExpertPower designs, manufactures, distributes, services and supports energy storage solutions that provide customers with superior value.

Our mission at ExpertPower is to empower individuals and communities to live sustainable and fulfilling lives by providing innovative energy solutions that enable energy independence and a greener future.

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

"...an hour the battery was completely charged I am totally impressed with the price and quality of this charger" Read more

"...This charger is just plug and play as they should all be. I attached the leads, plugged it in and five hours later had a fully charged battery...." Read more

"Absolute simplicity. If you need to charge a lithium or LI-po battery (same- same) this charger is your best deal. NOT FOR USE ON LEAD BATTERIES !..." Read more

"...this 5A model through several full charging cycles now, and it seems to work reliably, putting out slightly more than 5A into a deeply discharged..." Read more

"... pply, I was dismayed that around 10W load (guesstimate) the fan would slowly turn on as higher charging current resumed. It's loud...." Read more

Battery charger 12v lithium

"...unit despite me saying I didn't want a replacement as the unit is not reliable, and just dies - they have check boxes for either refund or..." Read more
