

# Battery energy storage system 600 kWh

## Battery energy storage system 600 kWh

The 75 Kilowatt / 600 Kilowatt-Hour Battery Energy Storage System delivers clean, temporary power for use in industries such as construction, commercial, government, film and tv production, and live events. It provides world-class efficiency with no emissions, fumes, or leaks. Real-time telematics delivers intelligent insights 24/7 to optimize energy consumption.

Introducing the Deye GE-F60 Series, a state-of-the-art energy storage solution designed for both residential and commercial applications. This series boasts a robust Lithium Iron Phosphate (LFP) battery system, ensuring safety, reliability, and longevity. With its advanced features and high-performance capabilities, the GE-F60 Series is the perfect choice for those seeking a sustainable and efficient power management system.

The Deye GE-F60 Series represents the pinnacle of energy storage technology, offering unparalleled safety, efficiency, and scalability. With its comprehensive set of features and robust design, it is an ideal choice for anyone looking to enhance their energy independence and contribute to a more sustainable future.

The GE-F60 Energy Storage System (ESS), manufactured by NINGBO DEYE ESS TECHNOLOGY CO., LTD, presents a cutting-edge solution meticulously designed for high-rate cyclic charging and discharging scenarios. Recognized for its robustness, this innovative system harnesses the power of Lithium Iron Phosphate (LiFePO<sub>4</sub>) technology, which offers not only superior performance but also peace of mind through its comprehensive suite of advanced safety features.

In summary, the GE-F60 Energy Storage System epitomizes unparalleled reliability, efficiency, and safety for all your energy storage requirements. Whether for enhancing residential energy setups, optimizing commercial applications, or establishing effective off-grid systems, the GE-F60 stands out as an advanced, versatile solution meticulously engineered for exceptional performance.

Gridbox 10GB Battery Energy Storage System(BESS) is a high-energy-density product specifically designed for Utility, Commercial & Industrial applications. The 10GB BESS Solution includes our Lithion Battery Modules, bidirectional inverter, isolation transformer, thermal management system, overcurrent protection, and our Gridbox Control System.

An environmental control system is also built into the container, which increases service life of the battery system. Intelligent battery management technology is leveraged to improve the safety of the system and its lifespan.

EVO Power is providing Utility-Scale Storage technology and volume cost savings to the Commercial & Industrial (C& I) battery markets with the NEO+ series.
