

## Battery safety cape verde

In order to enter the country, you need a passport valid for 6 months beyond your date of return. For European citizens, the previous entry visa was replaced from January 1, 2019 by compulsory registration via this online registration form at least 5 days before entry. During the registration process, you also pay the newly introduced airport security tax of 31, € Euro per person by credit card. As an exception, you can register and pay upon arrival in Cape Verde, with a counted 31, € Euros in your hands. Nevertheless, it is safer to do this in advance.

Non-Europeans as well as Europeans who wish to stay in the country for more than 30 days and up to 90 days still need a visa. Please contact the responsible Cape Verdean embassy or the Cape Verde consulate in the country where you have your permanent residence.

Here is a list of some consulates and embassies. To enter, you need a passport that is valid for 6 months beyond your return date. For European citizens, the previous entry visa was replaced from January 1, 2019 by registration via this online form at least 5 days before entry. During the registration process you also pay the newly introduced airport security tax of 31, € Euro per person by credit card. If necessary, this also goes directly to the entry to Cape Verde with a counted 31, € Euro. But it is safer to do this in advance.

As of September 15, 2022, all travel restrictions on the Cape Verde Islands have been lifted. Covid19 vaccination certificates or negative tests are no longer required; neither on entry nor on internal Cape Verdean flights or ferries. The mask requirement is also lifted in air traffic and in public buildings. The only exceptions are hospitals and health centers, where masks are still compulsory. We wish you a good trip!??

Please note that in despite of that, there might be a negative Covid19 test required for transit in Lisbon or other places. Please check the current regulations before you start your journey.

Eyeglasses, especially reading glasses for children, as well as bandages are always scarce and warmly welcome in Cape Verde. You can give them to the medical centers.

TUIfly offers connections from various German cities to Sal (SID) and Boa Vista (BVC) several times a week. Be sure to book the "Perfect"-tariff in order to have your luggage included in the price.

You can find information on the subject of Corona in Cape Verde on our website under "News". Currently, as of August 15, 2021, proof of a complete vaccination / recovery status or a negative Covid 19 rapid test or negative PCR test must be provided.

**Malaria:** During the warm and humid months (July to October), there is a very low risk of malaria on the island of Santiago. Malaria medication prophylaxis is not recommended, but you can use a mosquito repellent in this

case.

Dengue fever, transmittable by the diurnal tiger mosquito, caused an epidemic in 2010 on the southern islands. The epidemic was fought at very exemplary manner and we have no knowledge of any new dengue cases reported since then.

On the inhabited islands, there are medical centers and hospitals. However, the diagnostic and treatment options are often limited when compared to Europe. You will also have to pay for the doctor, hospital and treatment costs as well as for self-medication.

On Cabo Verde Islands, only a restricted choice of medicines is available. Therefore, pack up any medication you may need in your travel luggage. Important medicines are always safer in your hand luggage.
