

Battery solar kit 370 kWh

Battery solar kit 370 kWh

In the event of incorrect shipping information provided at checkout, we will make every effort to track down the item using our shipping partners. Please be aware that refunds and returns are not available in such cases. However, we will do our utmost to locate the item. If successful, re-shipping fees of up to 20% of the item's value may apply.

If your order is in stock and we have successfully processed your credit card charges, the items will be shipped within five business days from the order date. You will receive tracking information via email within 24 hours of your order leaving the distribution center. Should tracking information not be received within six days of your order, please contact us at +1 (307) 317-7213. Cut off time is 4 pm EST.

Eco Solar Kits does not ship orders directly to Hawaii or Alaska. Clients needing delivery to these locations must arrange a freight forwarder and enter the forwarder's address as the shipping address. Eco Solar Kits will then ship the order to the designated freight forwarder under our standard shipping terms.

Typically, orders are processed immediately upon receipt, taking approximately 1-4 business days after order confirmation, payment, and pick-up time to fulfill.

To prevent delays, frustration, and additional costs, kindly inform us of any concerns regarding the delivery to your location. It's important to note that the following situations may incur additional costs:

At D& D Eco Power Goods LLC, we strive to ensure our customers are completely satisfied with their purchases. Our return and refund policies are designed to provide a fair and transparent process based on the delivery date of your item.

We prioritize customer satisfaction and aim to provide a seamless refund experience. This refund policy is based on the delivery date of your item to ensure fairness in the return process.

Refunds will be processed based on the delivery date of the product. Once the manufacturer receives and inspects your returned item, we will notify you regarding the approval or rejection of your refund. If approved, the refund will be processed through your original payment method, typically within 10 days. Please note that it may take some time for your bank or credit card company to process and post the refund.

Introducing our Complete Off-Grid Solar Kit, designed as the perfect starting point to power your cabin, shop, or RV entirely off-grid. This comprehensive package includes six 370W solar panels, a 5.12KWH Powerwall battery, a 6,500W solar inverter, and a complete set of solar cables. With an approximate daily production of 5.92KW based on four hours of sunlight, this kit offers reliable energy generation.

Battery solar kit 370 kWh

Ideal for cabins, shops, RVs, and similar setups consuming around 177 KWH per month, this system provides the autonomy and sustainability you need. Additionally, the modular design allows for easy expansion with additional batteries and solar panels to suit your specific requirements.
