

Battery solution 95 kWh

Battery solution 95 kWh

The L200 is a state-of-the-art commercial and industrial energy storage system, and it is designed and engineered for Australia's conditions and to ensure the highest level of safety. This advanced system is designed to serve as an efficient and intelligent power supply that can seamlessly integrate with solar panels, EV chargers, and other devices to form a comprehensive micro-grid solution.

The L200 is an ideal solution for those seeking a robust and versatile commercial battery energy storage system. Its ability to integrate seamlessly with commercial solar power and battery storage systems, coupled with its advanced safety features and reliable performance, makes it a superior choice for both industrial and commercial applications. Embrace the future of sustainable energy with the L200, your reliable partner in efficient power storage and management.

eLumina acknowledges the Traditional Custodians of the lands upon which we work, live and socialise. We pay our respect to their Elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples who we recognise as Australia's First People whose cultural practices continue today.
