## Best free energy saving app

In addition to taking photos, using maps, chopping fruit and playing word games, you can get apps that bring energy efficiency to your fingertips. With your smartphone, it is easier than ever to start saving energy today! So without further ado (drumroll please), here are the Top 10 Energy Efficiency Apps for 2013!

CodeGreen Energy is one of the best free energy-efficient apps available. Using information gathered from ENERGY STAR® resources, the app allows users to benchmark and compare ENERGY STAR® scores for thousands of types of buildings.

This free app gives you tailored tips for making your daily commute as low emission as possible, from energy-saving routes to local carpooling opportunities. Commute Greener also offers badges, rewards and communing challenges as incentives to become more energy efficient.

We've compiled a list of 15 smartphone apps (dubbed "green apps") and tools that will help your home or business keep track of your energy consumption. Electricity Rates Texas

Going green can improve air quality, preserve water, and even help save money on utility bills. Let's look at some of the best green-friendly apps for your smartphone. All of these are just a few taps away from your path to fighting climate change.

appsforenergy allenge.gov 2) Wisner EMSFreeon iTunes,Schneider Electric"senergy management app, The Wisner Energy Management System (Wiser EMS), makes energy use easy to view and understand with "infographics." Families can see where they need to reduce energy consumption to see the best bang for their buck.

appsforenergy allenge.gov3) Energy TrackerTheEnergy Trackerapp allows you to avoid unnecessary energy expenses. On just two tabs on the smartphone screen, you'll see just how much energy your appliance or system has used. Plus, you can export the data gathered by the app to your computer in a CSV file. This app, by iOS Apps Austria, is \$0.99 on iTunes.

itunes.apple Watt & Cost Calculators4) Energy Cost CalculatorFreeon iTunes, theEnergy Cost Calculatoris a simple equation-based system that calculates energy costs. Input your estimated consumption used per hour, how many hours of energy used per day, and the cost per Kilowatt or Watt - and you will find out what you're paying. Just beware - the results may astonish you!

itunes.apple 5) Green OutletRecommended by treehugger , ecogadget , and DailyTekk , theGreen Outletallows you to figure out what appliances in your house use the most energy. And then, after entering some personal data, the app will calculate your average monthly cost! This app, by Key Lime 314, is \$0.99 on iTunes.

## Best free energy saving app

itunes.apple 6) Nest MobileNest Mobile, by Nest Labs, is free on iTunes and it allows you to change the temperature of your house from your iPhone, iPad, or iPod touch. And you can use this control anywhere! With your iRemote, set the temperature higher on your way home or lower the temperature if you decide to stay out longer than planned. Important note: While the app saves you energy and money, it only works with the Nest Learning Thermostat.

itunes.apple 7) Ecobee Smart ThermostatFree on iTunes, the Ecobee app acts as a smart thermostat wherever you are. The app helps you understand the energy demands of heating, cooling, and ventilation. You can also download information from the app on your computer to develop reports and charts. Important note: The app can help you create temperature schedules and save at home, but it only works with its companion, Ecobee Smart Thermostat.

itunes.apple 9) Light Bulb FinderWith the free Light Bulb Finder app for Android and iPhone users, you can find out where to purchase energy-efficient light bulbs. The app guides you through the quick and easy process, starting with gathering information about what bulbs you are already using at home. After that, you'll be given a recommendation about the best bulb alternative based on cost savings and environmental impact!
