This website provides the most important contact information about the Corporate Offices & Headquarters including ChargePoint Address, Corporate Number, and more.

ChargePoint Holdings, Inc. (formerly Coulomb Technologies) is an American electric vehicle infrastructure company based in Campbell, California; ChargePoint operates the largest online network of independently owned EV charging stations operating in 14 countries; and makes some of its technology;

ChargePoint was founded in 2007 as Coulomb Technologies by Richard Lowenthal, Dave Baxter and Harjinder Bhade;

In June 2017, ChargePoint took over 9,800 electric vehicle charging spots from GE; adding to its 34,900 existing charging stations across Mexico, Australia, Canada, and the United States;

The CEO and president as of 2018 is Pasquale Romano; On November 28, 2018, ChargePoint raised \$240 million; At the time, ChargePoint maintained 57,000 charging stations; In 2019, VW's Electrify America and ChargePoint agreed to provide common access to their US customers;

The company reached 100,000 chargers in September 2019, while adding more than 2,000 charging locations per month;

ChargePoint went public through a special-purpose acquisition company ("SPAC") reverse merger in February 2021; In January 2023, ChargePoint, Mercedes-Benz, and MN8 Energy announced plans to add 2,500 fast chargers at 400 charging hubs in the U.S., which will be available to all EVs;

The company "designs, develops and manufactures hardware and software solutions" for electric vehicles at large; Its business model, according to the Silicon Valley Business Journal, involves selling "its hardware and software to property owners, build a searchable network of charging stations for drivers and maintain individual stations."

ChargePoint Home - This small home charger won an Edison Award for new product innovation and human-centered design; It is available in 16A and 32A versions. ChargePoint Home Flex
