## Cornerstone technology solutions

Cornerstone Technologies has a history of innovation, a storied legacy of IT solutions, serving so many to date, and being trusted by some of the largest organizations in the world (Visa, Nvidia, Microsoft, Advantest). In short, we help get you and your data to where it needs to be, intelligently -- whether it be AI engineering, cybersecurity, managed services, or any IT support.

Cornerstone Technologies has a history of innovation, a storied legacy of IT solutions, serving so many to date, and being trusted by some of the largest organizations in the world (Visa, Nvidia, Microsoft, Advantest). In short, we help get you and your data to where it needs to be, safely and securely--whether it be hybrid cloud migrations, cybersecurity, managed services, or any AI engineering augmentation you may need.

Although our rich legacy of innovation has kept us busy and proud to service clients of all kinds, we encourage you to explore the new frontier, the art of the possible, with Cornerstone Technologies.

Cornerstone Technologies" rich history of innovation has relied on two things: pride in our people, and a customer-obsessed mindset that leaves no stone unturned.

Ever since becoming the go-to global backup partner for Visa in 2008, Cornerstone has been just that; our job is your vision, and we gather the right people with the best expertise to build exactly what you want.

Whether it be hybrid cloud migrations, cybersecurity, managed services, or any engineering augmentation you may need, we aren't defined by "one-size-fits-all," but rather the size of the solution that works for you.

Our team of highly skilled professionals have seen projects of all sorts, servicing organizations of all sizes and industries, including FinTech, Education/ Schools, State/ Local Government, as well as Software, among others. With our far-reaching track record, we encourage you to reach out with any IT questions or cases, so we can prove to you our reputation of getting the right thing done for the right company.

Michael's journey is marked by his relentless drive and innovative spirit in mechanics, technology, and infrastructure. His leadership and ingenuity have propelled him to new heights, culminating in the founding of Office Automation Group, Inc. in 2001, which serves Technology Infrastructure needs across the United States. His acquisition of Cornerstone Technologies is now showcasing unwavering commitment to excellence in service.

After serving as a member of Cornerstone Technologies" Board of Directors for a long while, Skip McCormick accepted the full-time role as Chief Technology Officer and Artificial Intelligence Practice Lead, pioneering efforts to service the many advanced and complex needs of our clients.

Jon has always been driven by his curiosity, his lifelong love of learning, and his interest in helping people. These traits have led Jon to be a seasoned professional with extensive experience in technology, operations and building custom systems. He leads by example and loves brainstorming with customers and colleagues alike.

Jim's distinguished career is marked by a steadfast dedication to service and excellence. A proud veteran, Jim served in the Army, where he honed his leadership and strategic skills. After his military service, he attained a bachelor's degree in accounting, where he put his aptitude for numbers and analytical thinking to use.

Our team of highly skilled professionals have seen projects of all sorts, servicing organizations of all sizes and industries, including FinTech, Education/ Schools, State/ Local Government, as well as Software. With our far-reaching track record, we encourage you to reach out with any IT questions or cases, so we can prove to you our reputation of getting the right thing done for the right company.
