Eg4 lifepo4 server rack battery

The system was exactly what I was looking for. I built this portable 5 thousand watt system with the intention of using it off the grid in case I had to use any battery powered tools or power saw in an Emergency! This fit my budget and my hazardous type work environment which was in the woods and dessert especially during wet seasons and extreme cold winters. This is my second system. The first system is still humming along. I even dropped it in a 15ft ravine and it still powered up with a huge dent in it. Talk about reliability! EG4 quality is Damm incredible!

After much research this battery had a great rating and was very affordable. After purchasing 6 of them and using them for several months I am very pleased. They have worked well and I couldn't be happier.
