Ulaanbaatar, January 11, 2024 /MONTSAME/. The Minister of Road and Transport Development Sambatsogt presented the plan of measures to increase the use of electric cars. The Minister was instructed to approve the plan and monitor its implementation. As of December 2023, 1061 electric vehicles are registered in our country.

**Electric Vehicles: Total Cost of Ownership Tool.** An interactive calculator where users can compare the costs of owning and operating fossil fuel and electrified vehicles and the effect that changing different variables has on the result

Electric vehicle charging stations to be built in 25 locations in Ulaanbaatar AKIPRESS - Minister of Roads and Transport Development Byambatsogt Sandag presented a plan of measures to increase the use of electric vehicles...

Welcome to your comprehensive guide for finding electric vehicle charging stations in Ulan Bator, Mongolia. As the coldest capital city globally, Ulan Bator is leading the charge in green transportation, offering a growing network of EV charging stations. Navigate the city's vibrant streets and historical landmarks with ease, knowing your electric vehicle has a place to recharge.

To find out about charging costs at a specific location, just click on the pin icon on the map. You'll see a cost field that provides pricing information contributed by previous users of the charger. Additionally, some chargers may have pricing details mentioned in their descriptions. Keep in mind that for certain locations, pricing information may not be accessible.

To pinpoint Tesla-compatible charging stations, click on a specific station pin on the map. Examine the station details for information on available connectors; Tesla-compatible stations will specify Tesla-specific connectors. Don't forget to check user reviews and comments for additional insights.

The score attributed to a charging station represents user experiences, graded on a scale from 1 to 10, with 10

indicating the highest satisfaction. If users report negative experiences, the station's score decreases, while positive reports elevate it. Scores remain unchanged by neutral comments or check-ins. For a more comprehensive understanding of the factors influencing each score, we recommend reviewing location comments. You can easily find PlugScores via the Station Summary icon on the map.

Another interesting driving destination is the Terelj National Park. Situated about 50 kilometers northeast of Ulan Bator, this park is known for its stunning natural landscapes, including granite cliffs, lush valleys, and the iconic Turtle Rock formation. The park offers several driving routes that allow visitors to immerse themselves in the beauty of the Mongolian countryside. With its relatively short distance from the capital and the availability of charging infrastructure in nearby towns, Terelj National Park is a great choice for an electric vehicle adventure.
