Electricity policy san jos 233

San Jos's Clean Energy, or SJCE, is San Jos's local, not-for-profit electricity supplier operated by the City of San Jos's Energy Department. Since 2019, we have provided clean energy for residents and businesses at competitive rates, while also offering community programs, local control, and more transparency and accessibility. Our ...

City Council unanimously approved the creation of San Jos's Power in 2023. The decision allows the Energy Department to explore tapping into two high voltage transmission lines set to run through the city in 2028. A public utility could save some new customers as much as 25% and attract businesses.

San Jos's Clean Energy (SJCE) is San Jos's local, not-for-profit electricity supplier operated by the City of San Jos's. Since 2019, we have provided clean energy for residents and businesses at competitive rates, while also offering community programs, local control, and more transparency and accessibility.

Rate Change May 15, 2023: Establish San Jos's Clean Energy rates, inclusive of the Power Charge Indifference Adjustment and Franchise Fee Surcharge, for GreenSource, TotalGreen, and SJ Cares; expand SJ Cares program to include non-residential customers - Memo

Under E-TOU-C pricing, your rate will instead vary based on the time of day you use electricity. You receive lower rates during "off-peak" hours when overall energy demand is lower and more renewable energy is available (before 4:00 p.m. and after 9:00 p.m.).

These long-term utility plans are submitted every two years to the California Public Utilities Commission. They forecast load and energy needs, detail how to achieve state and local climate goals, and model renewable energy integration.
