

# Energy storage battery installation 20 kWh

## Energy storage battery installation 20 kWh

The Enphase Ensemble automatically detects and transitions the system from grid power to backup power in the event of a grid failure so you can always have peace of mind.

This 20kWh battery storage package supplies backup energy solutions for a substantial portion of the home. You can power lights, computers, TVs, security systems and common appliances like refrigerators and freezers.

With Enphase, you can design and customize the right energy storage system to meet your needs. You can connect multiple Encharge batteries to maximize your home's backup potential.

Some permit applications may require one or more plan revisions and resubmissions. Please supply us with all information necessary to make these revisions. Permit must be applied for with the city within 30 days of delivery of the permit package and any resubmissions must be resubmitted within 14 days of receiving the revised plans.

Our guarantee does not apply to installations on unsafe structures, unpermitted structures, ground mounts, structural engineering, structures not constructed to local building codes and other atypical building designs. This guarantee only applies to our standard solar system kits, it does not apply to custom orders or solar systems not designed by our engineers.

The sonnenCore+ is a stackable indoor solution that offers up to 60 kWh of battery capacity. The sleek design combines intelligent energy management with safe and long-lasting batteries to efficiently manage your solar energy usage and provide an alternative to net-metering. Plus you keep your home powered and protected during grid outages.

The sonnenCore+ home battery systems are stackable to a max of 3 systems per home - up to 60kWh. The scalability enables you to design the ideal battery system too meet your energy goals.

sonnenCore+ uses ultra-safe, durable battery technology that comes with an industry leading 10-year or 10,000 cycle product warranty and an estimated lifetime energy throughput of up 181 MWh for each 20kWh Core+ system (see Warranty for details).

The sonnenCore+ is a sleek home battery that's as quiet as a whisper, making it ideal for indoor-installation and built with batteries that are 100% recyclable (at an R2 facility), so it's good for your home and the planet.

By enrolling your sonnen battery in the sonnenConnect California program, your benefits can total up to

## Energy storage battery installation 20 kWh

\$2,100\* per year in electricity bill savings and cash rewards for helping stabilize the local grid. Learn how you can Go Beyond Net-metering(TM) with sonnen to help build a clean and reliable energy future for California and get paid for it.
