

Greece electric vehicle safety

BMI has a 40- year track record of supporting investors, risk managers and strategists. We help them identify opportunities and quantify risks in markets where reliable information is hard to find and difficult to interpret. This includes in-depth insight and data, and high frequency geopolitical risk indicators.

CreditSights enables credit market participants to manage financial risk better with independent credit research, global market insights, covenant analysis, and news, distilling market noise into actionable investment ideas.

dv01 provides true transparency in lending markets, and valuable intelligence on every consumer loan in the structured finance world, through a leading data intelligence platform.

Fitch Learning develops the future leaders of the financial services industry and drives collective business performance. We do this by utilizing a best-in-class technology platform and blended learning solutions that maintain the personal element of development.

We help credit, risk, and investment professionals make better-informed decisions and meet regulatory requirements, within and beyond the rated universe. We do this by providing differentiated perspectives and in-depth expertise through Fitch Credit Ratings, Fitch Ratings Credit Research, Fundamental Financial Data, and innovative datasets, all backed by transparent methodologies, accessible analysts, and workflow-enhancing analytical tools.

Sustainable Fitch delivers human-powered sustainability Ratings, Scores & Opinions, as well as Data & Research to serve the needs of fixed income investors. Our specialists uniquely deconstruct the complex issues of E, S, and G globally.

A new section that provides information on key aspects of e-mobility is now available on the website of the Greek Infrastructure & Transport Ministry, it was announced on Wednesday.

This new section provides reliable explainers and science-based answers to the most frequently asked questions about electromobility, such as the performance of an electric car, the safety of electric vehicles and energy management during a road trip.

In the same section on the website, information is also available on the ministry's current ongoing four programs: Move Electric, Green Taxis, e-Astypalea and Charge Anywhere.
