The Lux Power energy monitoring system can be accessed via a Web hub or phone apps. This allows the customer to view their system performance and also set various Charge & Discharge time settings from anywhere in the world.

Lux Power prides itself not only on quality but future development and maintenance. With the monitoring in place Lux Power can access any of their hybrid solar inverters to perform software updates without the hassle of calling out a solar electrician or someone to conduct solar inverter repairs.

I was very pleased with all aspects of Solar Battery group. I had lots of help and advice. The 2 Electrical Fitters were excellent and very knowledgeable. I would certainly recommend this company for your Solar requirements.

Best prices and advice with this company. Lewis was great and handled my enquiry exceptionally great. I do highly recommend them for their expertise. The installation was a fantastic two, sadly didn't get their names but did a tidy fantastic job!!

Good communication before and after I purchased an extra 6.5kW battery for my existing system. Battery arrived within the time stated. Friendly and knowledgeable installation team arrived on the same day and fitted battery without a hitch. Would definitely recommend.

We had so many sales companies calling us trying to sell us an overpriced battery, I was on the verge of giving up when we found Solar Battery Group on Google. They show the prices for every system online, so you don't need a sales rep trying to give you the hard sell. Very helpful staff and we are very happy with the installation!

Do you want to purchase inverters, battery storage, or a complete renewable energy system? The Battery Storage Group offers the best selection of renewable energy solutions to the general public with nationwide delivery at trade pricing.
