Gridserve charger locations

Our reliable network of High Power EV chargers provides reliable and convenient electric vehicle charging where you need it, all powered by net zero energy. Just tap and pay with contactless or the GRIDSERVE app. It's EV travel made easy.

We're committed to reliability with a pioneering EV charging test lab support by a nationwide maintenance patrol running 24/7, 365 days of the year and our in-house customer service call centre.

We're delivering world-class High Power EV charging across the UK where you need it, at our dedicated Electric Forecourts(R) on popular routes, at our Electric Super Hubs found on major motorways and at Electric Retail Hubs near popular shopping destinations.

At GRIDSERVE, we are at the centre of an electric vehicle ecosystem that is powering the EV transition. To really move the needle on climate change, it's crucial that we are all charging in the same direction with speed and scale. That's why we're proud to partner with a number of brands to accelerate the delivery of charging infrastructure.

GRIDSERVE UK OMM Limited is a limited company registered in England and Wales (registration number 11057010) with its registered office at Thorney Weir House, Thorney Mill Lane, Iver SL0 9AQ, England.
