

Intelligent energy ltd loughborough

Intelligent energy ltd loughborough

Intelligent Energy (IE) is a leading independent fuel cell manufacturer built on 30 years' experience in the development and manufacture of zero-emission hydrogen fuel cell power systems.

We design and manufacture a range of fuel cell products based on our patented fuel cell technology. The product range includes the world's highest power density fuel cell for unmanned aerial vehicles (UAV) and systems providing power from 800W to 300kW+ for applications including automotive, aerospace, power generation, telecoms, marine, rail and materials handling.

Our company is part of the Meditor group, a global investment business with interests across a range of industries from energy to pharmaceuticals. Since acquiring the company in 2017, Meditor has accelerated investment to facilitate further development and commercialisation of the technology and expansion of the product offering.

Intelligent Energy Ltd. is credited with ISO 9001-2015 (Quality), ISO 14001-2015 (Environmental), ISO 45001-2018 (Occupational Health & Safety) and IATF 16949-2016 (Automotive Quality Management).

At Intelligent Energy, we strive to be a good corporate citizen. As part of this effort, the Intelligent Energy Charitable Trust allocates £100,000 each year to support local charitable and voluntary organisations which support the local community.

At Intelligent Energy we offer the opportunity to work in a great team, with our world leading technology and cutting-edge products. We look for talented individuals who have strong commercial awareness and who operate with a sense of urgency and commitment. We value those who work collaboratively, base decisions on facts and who step-up and take ownership.

Intelligent Energy is a fuel cell engineering business focused on the development, manufacture and commercialisation of its proton-exchange membrane fuel cell technologies for a range of markets including automotive, stationary power, materials handling equipment and UAVs. Headquartered in the UK with representation in the US, Japan, South Korea, and China.

In March 2011, the Suzuki Burgman fuel cell scooter, equipped with Intelligent Energy's fuel cell system, became the first fuel cell vehicle to achieve European Whole Vehicle Type Approval.

In 2018, Intelligent Energy announced the launch of its IE-LIFT 802/804 fuel cell modules for power generation applications such as stationary power, micro-grids, telecoms, and critical infrastructure.
