Largest solar contractors in usa

Zipppia ranks the top 10 solar companies in the U.S. based on their 2022 revenue and market share. Learn about their products, services, and projects in the renew...

Solar Power World, the industry's leading source for technology, development and installation news, presents the 2023 Top Solar Contractors List. The list ranks applicants according to their influence in the U.S. solar industry in 2022.

Solar Power World, the industry's leading source for technology, development and installation news, presents the 2024 Top Solar Contractors List. The list ranks applicants according to their influence in the U.S. solar industry in 2023.

The individual state and territory lists were determined by kilowatts installed within each jurisdiction; 49 states, Washington D.C. and Puerto Rico all have their separate lists.

Featured companies include those that completed residential, commercial, community, and utility-scale solar installations within their own specific state/territory.

The companies are not limited to solar installing companies and contractors only; they could offer or specialize in other services including sales, EPC contracting, development, and construction/installation.
