

Lifepo4 3 2v 6000mah battery

Lifepo4 3 2v 6000mah battery

The Lithium Iron Phosphate Battery refers to the lithium-ion battery with LiFePo₄ as the positive electrode material. The anode materials of lithium-ion batteries mainly include lithium cobaltate, lithium manganate, lithium nickelate, ternary materials, lithium iron phosphate, and so on, among which lithium cobaltate is the anode material used in the vast majority of lithium-ion batteries. In terms of material principle, lithium phosphate also contains an embedding and de-embedding process, the same as lithium cobalt and lithium manganese.

3.2V150Ah Lithium iron phosphate cell Long Life Cycles 3000 Times For 12V 24V Solar Energy Storage Solar power system UPS supply Engine starting battery, electric bicycle/motorcycle/scooter, golf trolley/carts, power tools; Solar and wind power system, RV, caravan. The QH Tech LiFePO₄ batteries are manufactured under much tighter specifications, and for this reason, we have found in our own experience that these are the batteries of choice.
