At home, at work, or even when we're outside, these days electricity is an indispensable resource that all users rely on. Elektro Ljubljana accordingly offers you a broad range of solutions, provided with the very best in professionalism.

Elektro Ljubljana is one of the leading providers of charging services for electric vehicles in Slovenia. The knowledge and experience we have gathered over the years drive us to constantly improve our e-mobility services.

Public charging stations are devices installed where there is public parking that are accessible with, and sometimes even without, identification. A user must register before using those stations that require identification. Instructions for using the largest and most open Slovenian EV charging network – Gremo na elektriko (Driven by Electricity) charging stations can be found at every charging station. Elektro Ljubljana is following developments in new identification solutions to meet users' needs. Therefore after registration you can identify yourself in various ways.
