

Mecer lithium battery inverter

Mecer lithium battery inverter

Introducing the Mecer Energy Generation and Storage System, the perfect solution for managing energy in your home. This all-in-one device integrates a pure sine wave inverter and a Lithium-ion LifePO4 battery into a compact and stylish design, offering a cost-effective and self-sufficient way to store excess energy.

With its user-friendly features, the Mecer Energy Storage System makes energy management effortless. Enjoy a 2000-cycle LifePO4 battery with a 5-year service life, and three operation modes that can be easily configured based on your needs. The system automatically turns on the LifePO4 battery during power outages and offers convenient USB and DC output ports. The MPPT Controller improves charging efficiency by over 20% and protects the battery from overcharge and discharge.

Mecer offers a solution for homeowners who want to store excess solar or mains energy during the day to power their home day and night. Its Lithium-ion battery is lighter than lead-acid batteries and boasts a compact and elegant design. The system offers three operation modes that can be configured based on energy management needs, including user-programmable PV power supply priority and charging source priority.

Safety and reliability are key components of the Mecer Storage System, with its intelligent exhaust fan control and overall automatic protection and alarms, including AC output overload protection and short circuit protection. Upgrade to the Mecer Storage System today and experience effortless energy management in your home connects to solar or mains to power devices during power outages.

FirstShop is Africa's largest IT marketplace, powered by First Technology, we have been delivering technology solutions to real business challenges for over 30 years.
