

Micro vertical wind turbine

Micro vertical wind turbine

All our products are small and light and are activated by very low winds. They capture the wind from all directions, they are self-braking and, having no moving mechanical parts, they have an unlimited lifespan.

Our micro wind turbines are produced in Italy, recognized worldwide for the quality and taste of its products! Indeed, they combine a simple and elegant design with excellent performance!

Every person is important to help our planet! By purchasing our products, you will help to reduce harmful emissions by using an inexhaustible and clean source: the wind!

Our kits are ready to assemble out of the box and they can be installed without the need for permission from local or national authorities! Quick and easy assembly also thanks to our Video Tutorials!

We ship free of charge all over the world! Three days for delivery in Europe, 5/7 days in North America, 7/10 days in the rest of the world.

Windspire Wind Turbines Our vertical axis wind turbines come in many sizes and shapes from our 750 watt wind turbine up to our 5kW wind turbine. Affordable, attractive, and Ultra Quiet, creating clean energy from the natural wind. Every wind turbine Is Completely Made In Reedsburg, Wisconsin, USA. All wind turbines are available in custom colors.
