Google Play, also known as the Google Play Store and formerly Android Market, is a digital distribution service operated and developed by Google. It serves as the official app store for certified devices running on the Android operating system and its derivatives, as well as ChromeOS, allowing users to browse and download applications.

Everyone loves free stuff. And there's plenty of it on Android, with an insane number of free Android apps available in the Google Play store. But most of them are rubbish. We see a frustrating mix of non-official rip-offs, shonkily designed bedroom projects and, in the worst cases, plain old arrgghh-this-doesn't-even-work-at-all duds.

Fortunately, gems lurk among the dross, and we've rounded up dozens of crackers. Read on, download and enjoy the best free Android apps for photography, drawing, travel, weather, health, music-making, video editing, work, study, reading, watching TV and more.

You might rather hurl your phone into a ravine than install an AI-enabled browser. But hold on - this one doesn't gunk up Google searches with junk. Instead, you type a search term, tap "Browse for me" and can then peruse a sleek magazine-like layout. Plus, it's not robbing websites of visits -all sources are listed at the bottom of the page.
