GGGI's program in Mongolia directly supports the Government's National Green Development Policy, NDC and Long-term policy "Vision 2050". Based on GGGI's Strategy 2030 and Roadmap 2021-2025, GGGI Mongolia will contribute to:

Ministry of Environment and Tourism (MET) Ministry of Energy (MoE) Ministry of Construction and Urban Development (MCUD) Energy Regulatory Commission (ERC) Municipality of Ulaanbaatar City (MUB)

The Government of Mongolia (GoM) has identified improving the resilience of communities to the impacts of climate change and transitioning to a greener development pathway as priorities in its National Green Development Policy (NGDP). Mongolia's energy sector is highly dependent on fossil fuels with over 90% of heating and electricity derived from coal. The resulting soil and air pollution is particularly acute in the peri-urban areas of Ulaanbaatar and other secondary cities, where poverty exceeds the national rate of 27%.

Seoul, Republic of Korea, October 16, 2024 - The Ministry of Environment and Climate Change (MECC) of Mongolia and the Global Green Growth Institute (GGGI) signed a Memorandum of Understanding (MoU) on Green Growth Cooperation. Advisor to the Minister Mr. Batkhishig Purevdoo of MECC and Dr. Frank Rijsberman, Director-General of GGGI signed the MOU. Within []

Ulaanbaatar, Mongolia, April 10, 2024 - Under the auspices of the project "Strengthening Institutional and Technical Capacity to Support NDC Implementation and Mainstreaming Climate Change into Subnational Development Planning in Mongolia," funded by the GCF Readiness and Preparatory Support Programme, the Global Green Growth Institute (GGGI) is extending technical assistance to government offices across 21 []

ULAANBAATAR, MONGOLIA, OCTOBER 6, 2023 - The Ministry of Environment and Tourism of Mongolia and the Global Green Growth Institute (GGGI) launched the findings of a nationally representative Climate Change Knowledge-Attitude-Practice (KAP) survey titled Climate Change Awareness and Media Consumption Survey in Mongolia. Download the report here. When asked if climate change is a priority, []

Ulaanbaatar, Mongolia, 2 October 2023 - In a transformative leap towards accessibility and efficiency, the

Mongolia green electricity

National Agency for Meteorology and Environment Monitoring (NAMEM), the Ministry of Environment and Tourism, and the Green Growth Institute (GGGI) have launched an advanced website aimed at simplifying the process of acquiring historical meteorological data in Mongolia. The Meteorological Development Institute […]

In partnership with Members and peers, GGGI has developed a flexible model and service offering to stimulate Green and Resilient Recovery based on international best practices and insights. Click here to download WEB version. Click here to download PRINT version.

Directing finance to where it is needed most Delivering inclusive growth while limiting climate change to 1.5°C will require the mobilization of finance at a historic scale. Over the next 15 years, it is estimated the world needs about USD 90 trillion in climate smart infrastructure - most of it in developing countries. Investing in […]

GGGI's Impact & Evaluation Unit (IEU) recently completed and published its inaugural Impact Pathway Review (IPR) for its Mongolia country program. IPRs are an innovative new tool designed to improve GGGI's ability to assess the progress of its country programs towards impact. They were introduced as part of GGGI's evaluation workplan for 2019 and Mongolia […]
