## Must lithium batteries south africa

MUST is committed to developing clean energy and contributing its efforts to reduce carbon footprint. We are proud to have been manufacturing portable power stations, LiFePO<sub>4</sub> batteries, inverters, UPS, and solar charge controllers since 1998, with a team of 500 dedicated employees.

The LP3000 series is an advanced lithium iron phosphate (LFP) battery designed for solar energy storage and backup power applications. With its safe, long-lasting LFP chemistry, intelligent battery management system, and robust design, this battery provides an ideal storage solution for residential and commercial renewable energy systems. New.

MUST wall mounted Lithium battery solutions are highly integrated, deep cycle backup power solutions for your solar home energy storage system. With rich experience and advanced techniques, the product has the features of the fashionable design, high energy, high power density, long service life, and easiness of installation and expansion.

The LP1600 Series offers a versatile and reliable power solution. Combine up to 15 units for energy capacities ranging from 2560Wh to 10240Wh. With WiFi Remote Monitoring, stay connected and in control. Whether it's wall-mounted convenience, stacked-mounting (up to 5 units) for space efficiency, or rack-mounted for industrial power management, this series offers seamless adaptability.

The LP2800 Series wall mounted Lithium battery (LiFePO<sub>4</sub> Battery) solutions are highly integrated, deep cycle backup power solutions for your solar home energy storage system. Energy capacities ranging 5120Wh, 10240Wh or 15360Wh with rich experience and advanced techniques, the product has the features of the fashionable design, high energy, high power density, long service life, and easiness of installation and expansion.

The MH1900 Series offers a versatile and reliable power solution. Combine up to 15 units for energy capacities ranging from 5120Wh to 15360Wh. With WiFi Remote Monitoring, stay connected and in control. It has excellent safety, high energy density, long lifetime, very nice temperature performance, green power newly of excellent safety and high reliability.

The LP3000 series is an advanced lithium iron phosphate (LFP) battery designed for solar energy storage and backup power applications. With its safe, long-lasting LFP chemistry, intelligent battery management system, and robust design, this battery provides an ideal storage solution for residential and commercial renewable energy systems.

LP2100 Series is a lithium battery specially designed for residential applications with superior performance. Compatible with MUST PV/EP/PH inverters series, one-stop-shop solution can be designed with LP2100

## Must lithium batteries south africa

series, save you precious time and money, ideal solution for large home and small commercial with strong capacity 14.3kWh/15.3kWh.

MUST LP1900 Series is a lithium iron phosphate battery that offers multiple energy storage options through an expandable modular design (3-5 modules combined), which further simplifies installation and O& M with multiple smart functions.

LP2000 is a new type of lithium battery energy storage system. Energy storage is configured differently depending on the needs of the home, the battery capacity is 5.12kWh to 14.3kWh. Very suitable for home emergency power storage as solar battery.
