Clean energy financier PASH Global and ERIH Holdings have authorized a contract to create a joint venture to establish solar and also energy storage projects amounting to 100MW in Paraguay.

The projects will generate clean and also reputable energy across Paraguay and also lead to the development of jobs in design, building and construction and also plant procedures.

The 50:50 JV incorporates ERIH's decade-long international knowledge in the advancement of solar projects with PASH's investment proficiency in the renewable resource projects.

"We delight in to partner with PASH and see significant opportunities for our JV to expand our solar and also power storage space footprint. I am confident that this will certainly pave the way to even more opportunities in the LATAM renewables as well as storage space market" said ERIH's chief executive officer, Akin Gunduz.

"This is a great partnership, as well as we are excited to deal with the PASH group and also further our joint commitment to clean renewable energy and low-carbon investments," claimed Vine Mwense, founder and also executive supervisor, PASH Global.
