

Port moresby home energy storage

Port moresby home energy storage

We are committed to becoming the driving force behind the solar energy industry in Papua New Guinea, facilitating a transformation of energy usage across the country. We strive to establish ourselves as a sustainable model for solar technology in Papua New Guinea, maximizing the value of our customers' investments.

To emerge as the most esteemed energy technology company in Papua New Guinea. We are dedicated to providing our customers with value-added products and services, fostering a growth-oriented environment for our employees, and creating exceptional investment returns for our shareholders.

We're passionate about serving our communities and providing our customers with the products and services they want, when they want them, at a competitive price. From fresh food to fuel to local produce – we want to be the go-to store for everyone in the community.

We want to be the preferred energy solutions partner for all commercial and industrial customers. We have a relentless focus on adding value to our customers' businesses by understanding and meeting their needs. Working closely with customers, from agriculture to mines, we tailor our energy solutions to their specific needs.

We are proud to serve the world's leading airlines and airports. Whether they need Jet-A1 or AVGAS, our customers know they can rely on us 24/7 to meet their needs – ensuring security of supply, high-quality fuel approved to international standards and fast turnaround times. We take care of everything - from importation, handling, storage, bridging and transportation, to into-plane operations at our own airport fuelling depots.

Whether you are running a business or are a consumer, you can save costs and enhance efficiency by using the right lubricants in the right way. At Puma Lubricants we can help. By working closely with businesses we adapt our world-leading technology to your needs to deliver measurable benefits. For motorists, we supply a wide range of high quality products across our retail network.

Our clean and low carbon energy offer includes solar and hybrid solutions, diesel to gas conversion, biofuel solutions, and carbon offsetting to support our customers on their energy transition journey.

We offer a range of standard and premium diesel fuels. Our enhanced diesel products are designed to keep up with the latest motor technologies and improve performance.

Fuel up fast and safely with us. We accept all payment methods and offer innovative solutions to match your needs and budget. Choose from our full or self-service options, and rest assured that our highly trained staff

Port moresby home energy storage

will provide you with the quickest and best refueling service.

A villager can easily use bicycles in rural areas of Papua New Guinea where road conditions are bad. They can easily clip the d.light S2 to the handlebars of their bicycle during the day to soak Here a villager has extended his working hours into the night by using d.light S2 Study Lamp. He is involved in a micro-business activity. This villager in Keram River, Angoram District, East Sepik Province is buying alluvial.

A small trade store is well lit using the d.light D20 Solar Home System (SHS). The proud owner of this trade store can now extend her trading hours into the night and increase her income.
