

Portable dc charger for ev

Portable dc charger for ev

The Mobile DC Fast Charger is one of the most cost-effective solutions on the market. It's proven durability means it's built to last and can even act as a great backup in case of faults in other units.

Due to its simplicity, portability and durable casing, the Mobile 40 kW is a great solution for a broad range of vehicles. So even if you have a mixed fleet the Mobile DC Fast Charger can charge them all.

Our focused approach to exceptional end to end customer experience sets us apart from the competition. From enquiry to delivery and everything in-between we regularly exceed our customers' expectations.

Delivery on time, every time to customer specifications. We pride ourselves on offering tailored service solutions to meet our customers' exact specifications.
