Power bank 100ah

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

"... does probably 25 downrigger retrieves from ~120 feet and charges my phone. Sits at 13.5v all day as long as my engine is running...." Read more

"...These were no more expensive than the lead acids I've been buying so if I even get half the quoted life (5 years) out of these it's a deal...." Read more

"...They are powerful, reliable, and quick to recharge. And my communication with customer service has been prompt, courteous, and customer-oriented...." Read more

"...13.4 the other read 12.1 took it out and put it on the charger it will not recharge. The customer service keep trying to tell me it's my charger...." Read more

"...Sits at a constant 13.5v, zero temp issues. Although time will tell on durability, for now I'd take this over others that are 2x the price." Read more

Dr. Prepare PowerMax is a combination of a 12V 100Ah LiFePO4 battery and a solar generator, supplying power during your RV travel, outdoor camping, and it can be also used as the emergency power and home backup battery.

The intelligent BMS with Texas Instruments chipset protects the battery from over-charge, over-discharge, over-current, short circuit, high temperature, and low temperature. The built-in 68 automotive-grade cells also provide outstanding discharge performance and lower heat generation. With IP65 waterproof and V0 flame retardant rating, the PowerMax is ready to deliver reliable power for your outdoor adventures.
