You can count on Bridgetown Enterprises for all your logistics needs, and you can rest assured that your goods are in safe hands with our incredible team. Learn more about how we can help you.

Our food storage warehouses meet the highest standards of cleanliness, security, and efficiency. We offer comprehensive solutions for your food storage, logistics, and distribution needs. Store non-perishables, raw materials for manufacturing, and finished products at our licensed food-grade warehouse facilities.

As of November 2024, the average storage system cost in St. Louis County, MO is \$1397/kWh. Given a storage system size of 13 kWh, an average storage installation in St. Louis County, MO ranges in cost from \$15,438 to \$20,886, with the average gross price for storage in St. Louis County, MO coming in at \$18,162. After accounting for the 30% federal investment tax credit (ITC) and other state and local storage incentives, the net price you'll pay for solar can fall by thousands of dollars.

Importantly, these costs are typical for shoppers comparing storage quotes on the EnergySage Marketplace. When you compare quotes for solar panels and batteries on EnergySage's competitive marketplace, you can expect to see prices up to 20% lower than working with a single company.

There are several variables that impact the price you pay for a solar + storage system: the quality of the equipment you install, the type of inverters you choose, and the storage capacity and chemistry of your battery. This is an average price range for solar + storage installations in your area, and the specifics of your project will change the final price you pay.
