Cashback: Get 6% cashback on all Online Bank Full Payment (Excluding Non-EMI Transaction)*Cashback will be received from nearest shoppe supplying material in 7 to 15 bank working days.

UTL's Tubular 40Ah Solar inverter batteries are engineered to generate high power and voltage. Latest technological advancements result in extended life and the ability to withstand several types of operating conditions. The battery has a unique tubular gauntlet and is made using superior active material and special grid alloy. Specialized vent plugs are utilized to ensure leak-proof operation. UTL has engineered each of its solar inverter batteries in order to minimize the self-discharge rate.

Check Features & Prices details of other UTL Solar Battery Models:- UST 4036 40Ah Solar Inverter Battery, UST 16536 165Ah Solar Inverter Battery, UST 1560 150Ah Solar Inverter Battery, UST 2036 200Ah Solar Inverter Battery, UST 2060 200Ah Solar Inverter Battery.

The battery has advanced tubular battery features such as NAT grids and multi-tube gauntlets that encapsulate the positive plate active material resulting in cyclic stability, longer life and higher capacity than flat plate batteries.

The grid structure of the lead acid battery is made from lead alloy. Pure lead is very soft, this is why we add small quantities of other metals such as antimony, calcium, tin, and selenium etc. that helps the battery to recover faster from deep discharge.

Float vent plugs are provided, so that you can check the water level of the inverter battery after every two months. It is advised to maintain the water level in between the maximum and minimum water limit. Distilled water should always be used to top-up the battery. Do not use tap water or rainwater as it contains excess minerals and impurities which affect the life and performance of the battery.

Batteries at UTL utilize PE separators instead of ordinary PVC separators. The PE separators last longer and offer better results which results in longer and much enhanced battery life.

UTL is totally confident about the backup time that our inverter batteries provide. We can challenge anyone on the basis of the long backup time of our products. Our batteries provide the users with higher backup as compared to any other battery of similar rating. We are loyal to our customers and strive continuously to always deliver in the best way possible.

Corporate Office:Fujiyama Power Systems Pvt Limited,Plot No. 51,52 Sector, Ecotech-1, Ecotech Extn-1, Greater Noida, Gautam Buddha Nagar, Uttar Pradesh 201310

Solar battery 40ah price

Registered Office: Fujiyama Power Systems Limited 53A/6, Rama Road Ind. Area Near Sat Guru Ram Singh Marg Metro Station Near NDPL Grid Office, Delhi - 110015 CIN No. U31909DL2017PLC326513

If in case, any defect arises after the delivery, installation and demo of the product then Moxikart is not responsible for any return or money back claim and in that case of such defects the service / support will be entertained by respective company / brand as per the company's respective norms or warranty terms.
