Go solar is becoming an extremely popular choice for Solar products in Kenya, and with good reason. We ensure our customers receive high quality solar products as well as the necessary support. Order in our website and receive your order in 1 to 5 days to all parts of Kenya.

From a mile away, the roof of Mihingoni Primary School glitters in Kenya's midday sun. The effect, though, comes not from the roof but from what is on it: a sparkling array of solar panels.

CONTACTS: KENYA OFFICE: Apple wood Adams building, Ngong road, Nairobi Kenya P.O BOX : 74231 00200 Nairobi, Kenya Mobile :0721 207 949 Mobile :0795 929 462 SUDAN OFFICE: Juba Town Tel: 211 927911363,

Harmful carbon dioxide and methane emissions from our traditional energy source are leading contributors to global warming and decreased air quality, Solar energy is a clean, affordable, and sustainable.

Power cuts are a part of life in Kenya, and you have to schedule everything around the possibility of a power outage. With solar energy, there are no more power cuts. The sun is always shining. And when it is not, alternate back-ups are available. Work never comes to a stop. And neither does the consumption of electricity. Computers, servers, telephones, leased lines, air-conditioners, tube lights, fans ?EUR" all essential components of comfort and all culprits in electricity consumption

We conduct a site visit in any location in Kenya and suggest the optimum solution, taking into account the direction of the roof, the exposure to the sun and other factors.

With an off-grid solar system, you ?EUR(TM)re completely reliant on the sun and energy stored in batteries to power your home or business. We supply and install offgrid systems in Kenya.

As the name suggests a Solar Hybrid combines the power of an On-Grid System with an Off Grid system. You should go for this option when you have the grid availability but also face frequent power cuts.

Solar pumping is the ideal solution to solve problems of water supply, extraction and pumping in remote places of Kenya. The main goal is to supply water anywhere, even in those places very distant from main waterways and to the most isolated communities.
