## Solar energy companies south sudan

Sungate Solar offers reliable and sustainable solar solutions in South Sudan. Our innovative products and services provide access to clean energy, powering homes, businesses, and communities. Embrace the future with Sungate Solar's affordable and efficient solar solutions for a brighter tomorrow in South Sudan.

Solorika Energy is a leading provider of solar energy equipment in Uganda and South Sudan. We offer a wide range of solar products and solutions to meet your energy needs. Opening Hours: Monday - Saturday 9 am to 5 pm

First Mover & Leader for Solar in South Sudan. SunGate was one of the first independent solar businesses in South Sudan and has consistently led pioneering work for the sector including flagship C+I solar deployments for universities and hospitals, mini-grids, and new research for electric cooking and PUE.

We offer a wide range of solutions for home, business and industrial purposes. Applications it provides include off-grid and hybrid solutions, energy storage technology, solar water heaters, solar street lights, borehole drilling, water pumping and distribution, water treatment, irrigation, power transmission, substation maintenance, and power distribution. Aptech offers sales services to help their clients find the ideal solar solution to their energy needs and after sales services to maintain their products and systems.

Aptech has proven itself an innovator in the solar industry through its creation of PAY-N-PUMP, a smart solar-powered water pump solution for small-scale farmers in Sub-Saharan Africa. Through the PAY-N-PUMP solution, Aptech is working to provide affordable and sustainable access to water for irrigation, helping small-scale farmers to increase their income.

Aptech has also created its own innovative energy storage cabinet solution which is ideal for providing reliable uninterrupted energy in any grid-tied or off-grid location. Its modularity makes it easy to scale to fit the energy needs of any institution or business

Our highly trained engineers and technicians make a site visit to assess energy needs and any existing systems and see what components need to be replaced or upgraded.

Aptech only deals in brands renowned for their quality and with a proven track record for performance. Aptech stocks locally and is able to directly import required materials for any project.

Aptech Africa has over 10 years of experience in the solar and water pumping industry. It has grown to operate in over 7 different countries thanks to its reputation as a quality EPC company that can get the job done in some of the most difficult to operate markets in Africa"

## Solar energy companies south sudan

Aptech Africa is dedicated to working with the UN to achieve its Sustainable Development Goals (SDGs). Aptech Africa is working to eliminate poverty and hunger through the use of irrigation for crop and income increase, leading to economic growth. Irrigation also allows farmers to grow nutrient dense foods, improving the health of families. Solar power used to pump water is a source of renewable energy that is used to combat the effects of climate change and provide clean water for families."

With advances in PV technology, the lifetime of Aptech's solar panels is 20+ years. As solar systems do not require expensive diesel fuel or frequent maintenance and repair, most systems pay for themselves in as little as 1-2 years. Households and businesses are able to benefit by pocketing those energy savings.

Aptech selects only the best products on the market for its system designs & installations. It uses products that have a proven track record of performance and come with product warranty such as Victron, SMA, Soleil Power, Grundfos, Ennos, & Lorentz. Aptech's trust in its brands allows it to provide warranty for the systems it installs. You can rest assured knowing your system has the best components on the market.
