

# Solar energy for homes yerevan

Solar energy for homes yerevan

Today, the country has created all the favorable conditions for everyone who wants to install a solar plant. Necessary preconditions are availability of land (the land use destination should be in objects of energy), license and financial investments.

I would give 5 points in a 5-point scale to "GSS" LLC for professionalism of the staff, for the works planning and the quality of the work done and 4 points for the duration of the works

Organized, intelligent, young people who have a profound knowledge of their profession and I would advise everyone who would like to obtain a solar system to contact "GSS".

I did a market research and I chose "GSS". After the launch of the system, I convinced that have not mistaken in my choice. The "GSS" staff is skilled in the job, professional, competent and willing to help. I am grateful that we have already such a great sector.

I am very satisfied with the services of "GSS". I have received all the answers to my questions before the installation and the installation has been done according to the envisaged plan and the quality. I think that "GSS" has professional and responsible team. The installed systems work smoothly and effectively.
