Solar energy jobs norway

Airswift has been providing recruitment and workforce solutions to the energy industry for over four decades. We currently have multiple roles available in the green energy sector as the growth in jobs and demand increases.

Airswift has been providing recruitment and workforce solutions to the energy industry for over four decades, and currently have multiple roles available in the Norway renewable energy sector for the right candidates. For help finding your next job, submit your CV today and we'll be in touch.

Airswift is a recruitment company that has helped source renewable energy candidates worldwide for over 40 years. We pride ourselves on understanding the demanding nature of the energy, process and infrastructure sectors. Airswift is a global entity with over 60 regional offices worldwide. We can help you find onshore and offshore renewable energy jobs in Norway and other countries worldwide. If your job requires you to relocate overseas, we can make the transition as smooth as possible. We can provide support for travel, documentation, housing and more.

Airswift is here to handle any complex HR tasks, such as drug screens, background checks, salary arbitration and contract negotiation, so you can concentrate on running your business.

The PV industry is a cost and quality race. We look for team members who are motivated by the challenge of continuous quality improvement, the drive for cost efficient production and the development of new technology.
