

Solar energy research and development tehran

After three successful international conferences on Solar Energy held at the University of Tehran, Iran, in 2014, permission for publication of the new peer-reviewed scientific quarterly journal called "Journal of Solar Energy Research (JSER)" has been received.

Mohsen Hamzeh (Member, IEEE) received the B.Sc. and M.Sc. degrees in electrical engineering from the University of Tehran, Tehran, Iran, in 2006 and 2008, respectively, and the Ph.D. degree in electrical engineering from the Sharif University of Technology, Tehran, in 2012. From 2013 to 2018, he was an Assistant Professor with Shahid Beheshti University. In 2018, he joined the School of Electrical and Computer Engineering, University of Tehran. His research interests include photovoltaic systems, microgrid control, and applications of power electronics in power distribution systems.

Amin Daneshmehr received the B.Sc. and M.Sc. degrees in electrical engineering from the University of Tehran, Tehran, Iran, where he is currently pursuing the Ph.D. degree in power electronics. His current research interests mainly include photovoltaic systems and nonlinear analysis and control of power electronic converters.
