

## Solar industry nairobi

Nairobi, Kenya - November 28, 2024 - The African Solar Industry Association (AFSIA) is proud to announce the winners of the AFSIA Solar Awards 2024, recognizing the most outstanding achievements, projects, and individuals in the solar energy sector across Africa. The awards ceremony, held on 27 November, celebrated excellence in 14 key categories, highlighting the growing role of solar energy in driving Africa's sustainable development.

The AFSIA Solar Awards are a cornerstone of the continent's renewable energy industry, offering a platform to celebrate and showcase exceptional contributions to solar energy, from large-scale infrastructure projects to innovative technologies and impactful community solutions.

The AFSIA Solar Awards 2024 underscore the significant strides being made in solar energy across Africa. From utility-scale projects to solar home systems (SHS), mini-grids, and innovative financing models, the awards highlight the diversity and growth of Africa's renewable energy landscape. As the continent continues to focus on sustainable energy solutions to tackle energy poverty, these projects and individuals are leading the way.

"We are incredibly proud of the winners and all those who have contributed to the solar energy revolution in Africa," said John van Zuylen, AFSIA's CEO. "The winners of the AFSIA Solar Awards 2024 embody the innovative spirit, dedication, and impact that are driving the renewable energy transformation across Africa."

Jos?e Umugwaneza, Community Director, AFSIA: "AFSIA Solar Awards continue to shine a spotlight on the best and brightest in Africa's solar industry. As the sector grows, the impact of these projects will be felt for generations, accelerating Africa's transition to clean, affordable, and reliable energy."

About AFSIA: The African Solar Industry Association (AFSIA) is the leading trade association for the solar industry in Africa. Our mission is to accelerate the adoption of solar energy across the continent by advocating for policies that promote solar technologies, providing networking opportunities, and supporting capacity-building initiatives that foster innovation, growth, and sustainability within Africa's solar sector.

Sun-Connect News is a leading portal for decentralised energy supply in Sub-Saharan Africa. Since 2010, we have been providing up-to-date facts and the latest analyses for experts and practitioners.

It is our great honor to invite you to the biggest business event in Africa - Powerelec Kenya 2024, the solar energy trade show for power, renewable, storage & electrical industries.

The previous edition held in 2023 featured exhibitors and suppliers from Kenya, India, UAE, China, UK, Spain, Korea, Saudi Arabia, Egypt, USA, Israel, Qatar, Canada, Germany, Sweden, the Netherlands, Austria,

and many others.

HUAWEI was the principal sponsor. 2024's solar installation expo in Kenya will showcase country pavilions from Korea, China, and India. This solar products expo in Kenya will be attended by trade delegations from different countries, among them being East Africa. More than 400 delegates - mainly investors - and 50 world-renowned speakers will attend the conference, which will span for more than 3 days.

The energy exhibition in Nairobi will provide the delegates with an opportunity to interact with international organizations, suppliers, investors, technology experts, and EPC companies.

Powerelec Kenya is a powerful platform for all stakeholders in the power sector and provides a high-value opportunity for companies to meet, share, and promote their offerings (power generation solutions and products, power electronics, electrical services, and technologies) and understand the evolving market.
