

Solar installation thailand

Solar installation thailand

Harness the power of the sun with Solaris Green Energy, your go-to source for renewable energy solutions in Thailand. Our offerings include a diverse selection of the latest solar products – from solar panels and inverters to complete solar systems – designed to meet the unique needs of both residential and commercial markets.

But we don’t stop there. Our focus is on shaping the future of energy with cutting-edge technologies, such as Energy Storage Systems (ESS). Our partnership with Alpha ESS brings you access to top-of-the-line products, like the Alpha Smile B3, Alpha Smile-G3-S5, Alpha T10-HV (residential), and Alpha Storion T30A/T50/T100 (commercial), which perfectly embody the rapid growth of this market.

Long-term partnerships with leading manufacturers worldwide and a solid network of Thailand-based installers and EPC companies, Solaris Green Energy is your ideal partner for a sustainable energy future.

Troubled on which solar panel supplier to choose from? Not sure which ones are the best? Then you've come to the right place! These are our personal top 10 solar companies in Thailand.

As solar is becoming cheaper and more popular, choosing among the many solar energy companies in Thailand is getting harder, especially so as each installer may offer you different packages, services and energy solutions. Finding the right solar installer for your roof is important in ensuring a hassle-free installation that you are satisfied with.

Founded in 2007 as a subsidiary of Bangkok Cable Group, BSP has been developing its activities for providing the Engineering, Procurement, and Construction (EPC) solutions in relation to Photovoltaic (PV) Power Systems for domestic and international markets. BSP has since successfully expanded its business to provide better services to European customers and the Japanese market by opening offices and warehouses in Germany and Japan to ensure convenience and shortest delivery time.

BSP's solar panels are highly qualified, receiving certification for its quality management systems as per ISO 9001:2015 by T?V NORD (Thailand), as well as being power plant audited by Meteo Control, WZL at RWTH Aachen University and Fraunhofer IPT, Germany.

Operating since 2006, Blue Solar is a Thailand company focusing on the renewable energy business. Its portfolio includes developing 66 small residential solar rooftops, two 5MW solar farms as well as a renewable energy power plant in the SPP Hybrid programme that is composed of 50 MW solar PV together with a 54 MWh energy storage system.
