## Solar panels kampala

With more than 10 years of solar system design and solar module manufacturing experience, our team believes in carefully analyzing each project requirement and then providing you the most appropriate solution & solar power kits with factory price.

Sunbox Energy is designed to meet your power needs today, with the flexibility to adapt as your needs change. If you're looking for a reliable solar energy system made to fit your existing and future needs, Sunbox is the right and only solar choice.

SunBox Solar (U) Ltd Is a for profit social enterprise focused on the provision of green and reliable/renewable energy. Working together with Eyepower Engineering Company Limited and partnering with Uganda Industrial Research Institute (UIRI).

Dr.Solar is known for using high quality products, providing installation solutions that are unmatched in the industry. We provide solutions for residences, fuel stations, educational institutes, banks, offices, industries, showrooms, hospitals and so much more. Our solutions are either rooftop or ground mounted with transparent costing. You can enjoy significant savings on your electricity bill and might have the opportunity to sell excess power back to the grid. We provide long warranties for Solar Panels, Inverters, Batteries and DC cables.

A focus on customer experience is at the very heart of what we do. It's not only our products, which provide clean, bright light and the energy to run appliances to families who previously relied on dangerous, polluting kerosene lamps and candles. It's our after-sales service, it's the focus of our entire team and our company culture. It's in every decision we've made and all our decisions to come. Our highest priority is putting the customer first and making sure they have the experience they deserve.

The GEL batteries offer many significant advantages over conventional liquid acid batteries. Because there is no liquid electrolyte to leak or spill out of the battery.

Deye hybrid inverters include single phase 3-16kW and three-phase 8-12kW, For the SUN-3K-SG04LP1-24-EU, it uses 24V battery bank and the rest of them adopts 48V battery.

Unlock the power of sustainable living with a cutting-edge batteryenergy system for your home, ensuring stored energyis at your fingertips precisely when you need it most
