Solar panels kuala lumpur

Brilliant Solar is a pioneer in the solar power system industry in Malaysia, known for its reliable service and clean installation. We provide consultation, installation, maintenance, and procurement services for both residential and commercial consumptions.

Established in 2008, our years-long experience has allowed us to gain valuable insights into the long-term reliability of owning a solar power system. Hence, we pride ourselves in using top-quality products and employing experienced installers to harness the real potential of solar power in Malaysia.

Brilliant Solar is one of six companies registered under the first policy Feed in Tariff (FIT) and a licensed and approved service provider under the Sustainable Energy Development Authority (SEDA) Malaysia.

The 174.60kWp system for CNC Machining in Sungai Buloh, Selangor saves RM8,900/ month. An industrial project in Sungai Buloh, Selangor. The roof of the factory has been installed with a 174.60kw system.

Brilliant Solar is not just a solar company in Malaysia, but we might be branded as the best solar company in Malaysia as we have been providing sustainable and innovative solutions in Peninsular Malaysia. Solar energy in Malaysia began in 2008 when the first form of regulated policy was introduced, we were one of the players in the industry. As we know solar energy would be a future for our environment. Hence, we strive to harness the abundant power of the sun through our solar system which contributes to a brighter and greener Malaysia.

The Melting Pot of Malaysia, Kuala Lumpur is a beacon of light in the field of renewable energy as through the presence of solar company in Malaysia, we are actively transforming the way solar energy is being harnessed and used in the modern day. Through our comprehensive range of solar panels, we are empowering businesses and homeowners to be their own ambassadors in the journey not only for solar KL but to being a greener Malaysia.

As mentioned earlier, we use the most effective solar panels available to date as they are integral parts of the solar system. These solar panels are in constant evolution as they capture free-flowing energy radiated from the solar heat to produce energy which is then transformed into clean electricity. We are providing solar energy in Malaysia and we will ensure our clients are getting the best form of electricity available for them be it residents, commercial clients, or industrial applications.

Choosing Brilliant Solar for my residential solar installation was one of the best decisions I've made. Their team handled everything seamlessly, from the initial assessment to the final setup. Now, I enjoy a sustainable energy source and remarkable savings on my electricity bills. I couldn't be happier with the results!

Brilliant Solar has been a game-changer for our manufacturing facility. Their tailored solar solution has not

Solar panels kuala lumpur

only reduced our carbon footprint but also allowed us to cut down significantly on our energy expenses. We are impressed with Brilliant Solar's expertise and dedication to promoting clean energy practices.

I was initially hesitant about going solar for my home, but Brilliant Solar's team patiently addressed all my queries and concerns. Now, I am reaping the rewards of clean energy and lower electricity bills. Brilliant Solar's top-notch service and high-quality solar panels have exceeded my expectations.
