

Solar power solutions

Solar power solutions

ABB offers the industry's most comprehensive portfolio of products, systems, solutions and services to optimize the performance, reliability and return on investment of any solar installation – from residential rooftops to commercial and industrial applications and utility-grade power plants.

With a proven track record in solar since the 1990s, global presence and expertise from solar systems to grid connection and integration to smart grids and microgrids, we are your expert partner. Please note ABB has signed an agreement with Firmer to acquire the solar inverter business. Read the press release [here](#).

Our tried-and-tested Applications simplify the process: faster selection, easy installation, and quicker results. And our deep domain expertise means you'll get a solution tailored to your needs.

Digital transformation in power management is delivering more competitive solar power for 500 MW of new facilities, enough electricity to power 250,000 households
