

Solaredge battery 400v

Solaredge battery 400v

SolarEdge Home inverters allow a DC oversizing rate of up to 200% and a SolarEdge Home Battery provides an ideal storage option for housing all that excess power in both on-grid and backup applications.

SolarEdge Home Battery 400V is one of the first residential batteries to pass the strictest UL9540A unit level test for fire safety hazards, allowing convenient indoor installations.

SolarEdge Home inverters allow a DC oversizing rate of up to 200% and the battery provides an ideal storage option for housing all that excess power in both on-grid and backup* applications.

The SolarEdge Energy Bank offers a high voltage, DC-coupled storage solution, optimised to integrate with the existing SolarEdge residential system. In addition to the gain in efficiency associated with high voltage DC storage - due to efficient DC-DC conversion and no DC-AC changes - by optimising the Energy Bank specifically for SolarEdge inverters and StorEdge interfaces, the system is able to maximise storage of solar generated power.

A SolarEdge integrated storage solution means that PV generation, storage, EV charging and smart device control will all be managed and monitored on one platform - the SolarEdge app - for both smoother installations and ease of use by the resident.

The Energy Bank comes with a 10 year warranty, with a minimum of 70% capacity at the end of the warranty period after an unlimited number of discharges - for more warranty information please see the Warranty download on the right. Read all the latest FAQs to answer your queries here.

You will likely need the following components, depending on the size of HD Wave you're connecting to, and whether or not there is an existing Energy Meter in place. Contact us for details:

How much would you like to make payment for? Card payment ?

If you are a retail customer and are only looking to place occasional orders you are welcome to place this order without logging in however - please click the button below to proceed to our card payment provider.
